

Suggestion for TN government from HR & IR Group

- Request
 - Level up for ITI graduates
(Improvement program for ITI has been started by JICA under TNIPP.
But JCCIC requests TN government to also promote ITI education improvement.)
- Current issues
 - Not only educating skills and knowledge of industrial processes, but ITI shall also impart education in basic fundamentals (like Greeting, Punctuality etc.) and safety awareness (PPE etc.).

⇒

 - Takes a long time to train and educate before commencing work.
 - Some companies hire very few ITI graduates.

※JCCIC member can support internship etc., if required. If education level is improved, it will increase hiring from ITI.
